

# OMAR FARUK

## Full Stack Developer

[Portfolio](#) | [GitHub](#) | [LinkedIn](#)

Comilla, Bangladesh

Phone: +8801798642262

Email: omarabdullah1811@gmail.com

## Skills

**Languages:** JavaScript (ES6+), TypeScript

**Frontend:** React.js, Next.js, Redux, Tailwind CSS, HTML5, CSS3, Bootstrap

**Backend:** Node.js, Express.js, RESTful APIs, JWT Authentication, Passport.js

**Databases:** PostgreSQL, MongoDB

**Tools:** Git, GitHub, Postman, VS Code, Figma, Notion

**Soft Skills:** Teamwork, Punctuality, Problem-solving, Communication, Time management

## Projects

### Bazaaro

A scalable E-Commerce platform supporting customers, vendors, and administrators with dynamic features and secure transactions, designed for seamless functionality across all devices.

#### Key Features:

- Role-based functionalities: Admins manage users, vendors handle inventory, and customers browse, compare, and purchase products.
- Advanced filtering, product comparison, and cart management for a smooth shopping experience.
- Integrated secure authentication, payment gateway, and cloud storage for product images.

**Technologies:** React.js, Node.js, Express.js, PostgreSQL, Redux

### Gardenia

A community platform for gardening enthusiasts to share tips, engage with content, and access premium advice through secure payment integration.

#### Key Features:

- Rich text editor for creating, editing, and sharing detailed gardening guides.
- Voting, commenting, and following other gardeners to foster an interactive experience.
- Secure payment integration via Stripe to unlock premium content and badges for verified users.

**Technologies:** Next.js, TypeScript, Node.js, MongoDB, Tailwind CSS, Stripe

### Meet Space

A platform simplifying meeting room booking in co-working spaces with real-time availability and an intuitive user interface. Admins can manage rooms, bookings, and user data with real-time updates.

#### Key Features:

- Real-time availability of meeting rooms, with flexible booking options for date and time.
- Admin functionalities to create, update, and manage rooms, slots, and bookings.
- Secure payment processing via Stripe for booking confirmation, ensuring a smooth checkout experience.

**Technologies:** React.js, Node.js, Express.js, MongoDB, Stripe
